

# PAPER QUILL

## EQUIPMENT & MATERIALS

1 piece of plain white paper, a pair of scissors, glue stick, & pencil

STEP 1: Fold a piece of A4 paper in half

STEP 6: Roll the flaps around the pencil and seal the edges with a glue stick.

STEP 2: Place the pencil on the paper, so that just the pointy end is off the edge of the paper. Using a glue stick, draw a line of glue all the way around the outside of the pencil.

STEP 7: Using scissors, cut the outline of your quill feather around the pencil. You can draw it on with another pencil first.

STEP 3: Fold the paper over and pinch it together around the pencil.

STEP 8: Starting from the bottom, cut diagonally down from the edge of the paper towards the pencil.

STEP 4: Approx. 1 ½ inch from the bottom, cut a slit from the edge of the paper towards the pencil.

STEP 9: Leave 1mm gap and do the same again, all the way around.

STEP 5: Leaving ½ inch gap from the pencil, make another cut from the bottom of the paper, leaving two flaps either side.

STEP 10: There you have it! Enjoy using your new favorite pencil.
