

Product Safety Recall

Little Live Pets Lil Frog

**Sold in all major retailers and independent toy stores
from September 2016**

Identification:

The voluntary recall only involves two products from the Little Live Pet Range - Lil Frog (SKU: 28262, 28263, 28264) and Lil Frog Lily Pad (SKU: 28218).

The recalled products have been available for sale through major retailers and independent toy stores in every state and territory in Australia.

Potential Hazard:

Purely as a precautionary measure, Moose Toys has issued a voluntary recall of these products. The recall is due to a design defect which could cause a safety issue. If the batteries cap is removed it can become projectile and the chemicals can leak posing chemical and injury hazards. This voluntary recall is only limited to these two Frog products and does not impact any other items in the Little Live Pets range.

Consumers who have either of these products are asked to stop using them. Consumers are directed not to attempt to open the Frog's battery compartment or remove the batteries.

What to Do/Contact details:

Please visit www.moosetoys.com - click on "Product Safety" tab, or visit www.recall.moosetoys.com for replacement and refund instructions, or call **03-8572-1244**.
