 **HECTOR**

THE INTERNET CAR

#ITSAHUMANTHING

There are things that make us human. Like acknowledging each other, listening and responding to one another. Knowing when we are needed, and being there when we are.

Luckily, while we have been forgetting most of these, someone has been learning. From us.

The MG Hector.

A car that is, in many ways, more human. It's a human thing.

DESIGN PHILOSOPHY

Power infused with dance gives Hector its signature boldness on the outside, and its smooth curves inside. We call it **Emotional Dynamism.**

BOLD OUTSIDE.

The front and tail are inspired by the **F35**'s large engine air intake, which create a full sense of power in the car.

RHYTHM INSIDE.

The interiors welcome you into a world that flows in sync with dance forms. Each geometrical shape inspired by artistic movements that are perfect in form and function.
