

MG: The INDIA Chapter

A million speeding lines, a 96-year-old legacy, and our fingers on the pulse of innovation. We are a British fashion icon but also pop culture's best mate. We're MG. A 96-year-old startup. Why a startup? Because we were founded in a garage called 'Morris Garages' in 1924 by William Morris. Today, we are a future-forward brand. In India, the MG chapter started with the launch of the MG Hector - India's first Internet Car. Following Hector's tremendous success, we launched the MG ZS EV -India's first Pure electric Internet SUV.

We've built the MG India ideology on 4 principal pillars – Innovation, Experiences, Diversity and most importantly, Communities. The MG Communities, its people and their spirit of togetherness is what defines us. Here's the MG India family sharing their stories of MG.

MG DELHI NCR

Hector is a wonderful car! My family and I really liked the i-Smart feature. I have two kids and this feature helps track the car if someone else is driving the kids. My kids also really like the big sunroof.

Mahesh Kumar

When MG was launched in India, I had doubts about the car but I still booked it before seeing it. However all my doubts were clarified when I visited the MG showroom. I remember, I asked the salesperson about safety, and he took the time to demonstrate and explain the safety features like 3-rod doors etc. My doubts were cleared as safety is always my priority.

Mayank Rana

MG Hector is one of best SUV cars in India right now. I own a hybrid Petrol Sharp variant, the engine power is awesome and the cabin is very quiet. The riding comfort and the features are best in the class. It has great luggage space and panoramic sunroof which provides a great view. The safety features are world class. It is a perfect vehicle for a family which is easy to drive in city and fun on the highways.

Rahul Das

When MG came to India, it seemed like it would be a great challenge for them to compete in the Indian Automobile Market. But when the prices of Hector were announced and the prices of its AMC revealed, we were so happy to see it dominate the market. All the best to MG!

MG Hector has a beautiful built quality and is very safe with 6 airbags. I am using Hector since past one month and found it to be a very comfortable vehicle.

Excellent built quality, design of interior is good, very neatly laid out, the fit and finish is extremely good. Extremely spacious and insulated cabin. Safety is also given a top priority. Hector is very comfortable, absorbs bumps beautifully. DCT is a little slow on downshifts and is focused more on comfort than an enthusiastic drive (engine doesn't like being rushed), but is powerful and has a linear power delivery. Service plans are excellent and tension free. Overall a very reliable and value for money SUV

Mandeep Singh Juneja

MG Hector is awesome. This is a complete family car and each member of my family likes different aspects of the Hector. My brother likes its power and bold muscular looks, my son likes the 10.4 inch screen and driving comfort. Its AMC package is a complete peace of mind for me. I don't think any other car would have given such peace.

Anurag Garg

MG Hector is a big and bold SUV.We really liked the bold grill, panoramic sunroof, music system and most importantly the huge screen. What else does one need in a car.

Sunil Gupta

WEMG

MG Hector is a car which provides complete driving comfort. We found AI based voice commands the most comfortable feature, which can control AC, music, sunroof and navigation. Also, driver seat adjustment, steering adjustment can be done without any driving distractions. For me, overall Hector is a complete package of comfort. It really is a Human Thing.

Owning MG Hector is like owning a Dream Machine. When you are on the road, people turn round to stare. This feeling makes me proud. I own MG Hector DCT Sharp and have already driven 14000 km in 8 months. During this period, I got my Hector serviced 3 times at MG Faridabad Service Center and every time it feels like coming to my own personal service center. All the staff, technicians and manager greeted me well and took care of each and every single thing for my MG . I am seriously obliged with the outstanding high class service MG is providing. Thank you MG!!

I-Smart is an amazing technology, this is the first time I have experienced this in any car in India.With it I have the control of the car on my mobile phone with 50+ connected features. I am able to lock the car and unlock it with just a click on my mobile phone! It feels amazing using the app. I can also find where my car is parked.Thanks to MG for developing such a user friendly app which makes me feel more connected with my car all the time.

We did a lot of research when MG came to India, but none of the cars had such legroom and safety features. Hector drew all our attention. We booked it without even knowing the exact price of the car.

Diptanshu Mishra

Hector is classy, smooth to handle and has a great suspension and break. My family and I really cherish the drive and are eager to drive it even if it is for a kulhad chai around the corner.

Deepak Gupta

i- Smart is what I love the most, it has improved my driving skills due to the driving scores it shows. It pushes me to drive well and get as close to 100%. One incident in which app was really helpful was when, we went for shopping. When we reached the car, my hands were full of groceries. Suddenly I realized my husband had the car keys. Now going all the way back, or calling him would only waste my time. That is when I used the iSmart app to open the car. Such small things make great experiences.

Bhoomika Rawat

Value for money. We are overwhelmed with this car, its beauty and features. Features like big display screen is a thing to flaunt.

Roopam Budhiraja
