1st
TIME
IN INDIA

Introducing Autoplus, powered by Medklinn's revolutionary Cerafusion Technology. Once installed in any car, it sterilizes and disinfects the air and various surfaces of car cabin periodically without using any air filters or chemicals, making it healthier and safer in present times.

*T&C apply

**Breathe safe
cabin air every
time you step
out in your car**

Autoplus uses Cerafusion technology, which creates and delivers continuous flow of Active Oxygen inside the car, eliminating viruses, bacteria, mould, odours, allergies and pollutants found in the air and surfaces of the seats, carpets and dashboards, without the use of any air filters or any chemicals, making the car cabin safer to breathe. In the process, it also sterilizes and disinfects the cabin.

Medklinn's Cerafusion Technology

Medklinn's Cerafusion Technology creates
Active Oxygen just like nature.

The 5 ways Active Oxygen sterilizes your Air+Surface

- Active Oxygen eliminates bacteria and viruses by:
 - Breaking down bacterial cell walls.
 - Damaging viral DNA & RNA
- Active Oxygen oxidizes Volatile Organic Compounds (VOCs) like formaldehyde, a cancer causing chemical.
- Active Oxygen denatures allergens such as dust mite allergens
- Active Oxygen eliminates odours such as:

- Active Oxygen eliminates airborne particles such as :

Together, they form Active Oxygen, nature's most powerful sterilizing force, killing up to 99% of bacteria, viruses, allergens, moulds and other pollutants from both air and surfaces in any indoor spaces.

Benefits

Minimum maintenance
required

Cartridge Life

Autoplus comes with an inbuilt cartridge which has a life of minimum **1 year**.

After an year, the cartridge may emit a pungent smell. It solely depends on the driving condition and must be replaced accordingly.

Cartridge replacement process

Step - 1

Switch off and unplug the device before starting the replacement process

Step - 2

Push the top section of the unit inwards to take off front section of the unit out

Step - 3

Now you will see the old cartridge inside the unit which has to be removed

Step - 4

Remove the old cartridge and insert the new cartridge inside

Step - 5

Secure the front section again and the Autoplus unit is ready for reuse
